Relevant Experience

Frontend Developer
Apr 2024 - Jun 2024
@ Lanx Technologies - Contract

- Designed and developed a professional static website for an IT services company specializing in Software development, IT consulting, Cloud Infrastructure management, and DEVSECOPs.
- Created a responsive and intuitive user interface that effectively showcases the company's diverse range of technology services across all devices.
- Optimized site performance through efficient code practices and asset management, ensuring fast load times and smooth user experience.

Technologies Used: React.js, TypeScript, Tanstack Router, Tailwind CSS

Frontend Developer
Nov 2023 - Feb 2024
@ Cowrie Transfer - Contract

- Developed a visually stunning, high-performant web app for a fintech startup facilitating seamless money transfers from the US and Europe to Nigeria.
- Ensured a responsive and user-friendly experience across all devices for optimal accessibility and usability.
- Integrated with third-party payment gateways and RESTful APIs for secure and efficient money transfer.

Technologies Used: TypeScript, Next.js, Tailwind CSS

Frontend Developer
Oct 2023 - Dec 2023
@ Followmebet - Contract

- Spearheaded the development of a secure and scalable back-office for a Nigerian sports company.
- Streamlined user and admin activities, empowering efficient business operations.
- Conducted code reviews and knowledge-sharing sessions to maintain code quality and promote best practices.

Technologies Used: TypeScript, Next.js, Tailwind CSS

Frontend Developer
Jun 2023 - Oct 2023
@ Streams Foundation - Contract

- Led the development of a unique web app connecting those in need with potential helpers, similar to an e-commerce platform but for social good.
- Leveraged Next.js for server-side rendering, improving initial load times and overall performance.
- Collaborated closely with designers to translate wireframes and mockups into pixel-perfect user interfaces.

Technologies Used: TypeScript, Next.js, Tailwind CSS
